## Continuing high growth rate in Q3 ahead of important final quarter

On Tuesday, Shelly Group published preliminary revenue results for the first nine months. These figures continued the positive trend of the strong first half of the year. The company still is on track to meet its own guidance with growth above the 40% threshold.

**Positive revenue development:** Based on preliminary revenues, the 9M results of BGN 127.0m or EUR 64.9m are significantly higher than in the previous year (9M/23: BGN 86.3m or EUR 44.1m; +47.2% yoy). This does imply slightly declining growth momentum in Q3 of some +43.5% yoy to EUR 23.1m compared to the top line increase of +49.0% in H1/24, but Shelly remains well on track to meet its own forecast. Shelly would have to generate revenue of EUR 40.1m (Q4 2023: EUR 30.8m, +30.2% yoy) in the particularly strong Q4, which accounted for roughly 40% of overall revenue in the last two years, to meet the guidance of EUR 105m. To meet our forecast, a growth rate of 44.5% yoy would be required in the final quarter. This also appears to be realistic given the nine months to date. In this respect, we believe the timing of individual product launches and updates should determine whether our expectation at the upper end of the guidance can be met.

**Increase in liquidity from sale of office building:** Additionally, Shelly completed the sale of its fully owned subsidiary, Shelly Properties EOOD, for BGN 6.8m (EUR 3.5m), which had been announced in the first half of the year. This transaction also included the office building which is currently used. However, Shelly will move out in the next few months as the space is too small. The proceeds from this sale are likely to still be recognized in Q3/24 both in terms of earnings and cash flow. The book value stood at BGN 5,8m in H1, so that we expect non-recurring profit of roughly BGN 1.0m or EUR 0.5m. The sales proceeds also increase the liquidity cushion, which had decreased recently because of the strong increase in working capital.

**Capital Markets Day in Frankfurt:** The first Capital Markets Day on 5 November 2024 is the next upcoming event to which investors and analysts are invited. In terms of the financial medium- and long-term goals, we expect a confirmation of the 2026 guidance (>EUR 200m in revenue and >EUR 50m in EBIT) as well as the first look ahead on the targets for 2030. Our ongoing planning envisages 2030 revenue of c. EUR 430m and a slightly declining margin of 25.0%. The complete Q3 report is scheduled for mid-November.

**Conclusion:** Shelly's strong Q3 revenues have once again proven that the company is well on the way to meeting its own short-term goals for 2024 but also its medium-term goals, which we expect to be confirmed on the Capital Markets Day. The insights into the long-term strategy and the product updates (incl. ShellyX) are likely to further strengthen the equity story. In view of the still moderate valuation (PER 2025e: 20.0) we confirm our buy rating and the price target of EUR 49.00.

## Company Background

Shelly Group is a joint stock company under Bulgarian law (AD) headquartered in Sofia, which is specialized in the development and distribution of products from the smart home sector. The company also distributes tracking products, but they rather play a minor financial role (revenue share: < 5%).

The reporting currency is lev (BGN). Bulgaria has planned to join the euro with effect of 1 January 2024. As the lev was tied to the Deutsche Mark for historical reasons (at a ratio of 1:1 since 1999), the lev to euro conversion rate corresponds to the DM at that time, namely 1 lev = 0.51129 euros and 1 euro = 1.95583 lev. This rate has been fixed by Bulgarian law and does not change.

The smart home products are sold under the „Shelly” brand. Alongside plug-and-play solutions and sensors, the portfolio mainly includes relays which are installed hidden behind the socket or switch, and which can be directly controlled via a Wi-Fi connection or Bluetooth. The company differs essentially from many other providers (Philips Hue, Tado or Fibaro amongst others), whose product often can only be controlled via a hub/bridge within their own ecosystem. Furthermore, the products can be combined with other smart home applications and are in the entry-level price segment with a starting price of less than EUR 20. In addition to smart home products, the product portfolio also includes smartwatches specifically for children as well as tracking devices, for instance for baggage, pets, or health care data.

### Organizational structure

Shelly Group Plc, which is based in Sofia, is the group's parent company. The holding includes five subsidiaries which are all fully consolidated and fully owned by the parent company. The companies are in Bulgaria, Germany, and the USA. Overall, the group has c. 160 employees (at the end of FY 2023), 45% of which are working in the technology area, 20% in sales & support, 15% in logistics and 20% in the remaining areas.

#### Corporate Structure

Source: Company data

### Major events in the company's history

- 2003 Foundation of Teracomm Ltd. in the field of telecommunications services
- 2012 Foundation of today's Allterco JSCo holding company with the intention to bundle the structure

### Products

The Shelly Group's product portfolio spans from various smart home products and smartwatches specifically for children to monitoring and tracking products. Smart home products account for the lion's share (> 95%) of group's revenues and thus are at the center of the company's equity story.

Source: Company data

The smart home products are sold and distributed under the **"Shelly"** brand. Relays build the basis of these products. They allow for remote control of lights, electric devices, or sensors. These relays are connected to the power supply behind a socket or a switch and can be controlled through Wi-Fi via the Shelly app or one of many different providers from the IoT sector (Amazon Alexa, Google Home, SmartThings, Home Assistant etc.) entirely without additional hub. Besides controlling the devices in case of need, Shelly also allows for establishing routines (e.g. retracting the awning in the event of storm warnings) and monitoring energy consumption. Because of the Wi-Fi standard used, the relays can be combined with other smart home devices with Wi-Fi standard without any problems.

In addition to the traditional relays, which people can easily install in their own home, the Shelly brand also offers products within their **Pro line** for an installation in the fuse box. The Pro products can be controlled both via Wi-Fi and LAN and thus are more secure and reliable. Consequently, the Shelly Pro line is often also installed in office buildings, retail stores or production sites. We believe it is also of major interest for B2B customers (such as electricians). The **Plus line** introduced a new generation of Shelly relays, which are characterized by newer technology (processor, W-Fi and Bluetooth module) and a slightly smaller design.

Alongside the relays, which are not visible after their installation, Shelly Group also offers various **plug-and-play** products. The assortment includes the Shelly Plug (WiFi socket), the Shelly Bulb (smart bulb), the Shelly Button (programmable Wi-Fi button) and the Shelly TRV (WiFi heating thermostat). Additionally, the Shelly product portfolio provides various **detectors and sensors** (motion detectors, temperature and humidity sensors, smoke detectors as well as door and window sensors).

Most of Shelly Group's products are developed in Sofia. The key parts of the raw materials – most notably chips – are procured by the company itself and made available to the suppliers in Asia. Procurement is almost exclusively done in China among a couple of core suppliers (Top 5 suppliers > 90% of material expenses). The group always strives to be the largest customer of every supplier to have a good bargaining position. As the products have a very low pack size, they are shipped by air and sea freight. The share of sea freight is planned to be significantly increased to continue to lower ancillary costs of procurement.

**Markets and sales**

The company does not provide segment reporting pursuant to IFRS 8 so far. The 2023 Annual Report is based on a regional segment analysis as primary segment.

Shelly Group generates the largest portion of revenues in the DACH region (49%). In further European countries, the group most recently generated a sales share of around 43.7%. The rest of the world (RoW) accounts for further 7.3%. The company still sees significant growth potential in all the regions. Due to the success of actions made to optimize revenues in the DACH region, local sales teams are also being set up in further markets. The North American market is a key growth region in the RoW sector, which has hardly been developed so far. According to the company, in addition to the progress made recently inorganic growth may also be an option here to accelerate the development of the market.

**Sales by region (left) and by distribution channel (right)**

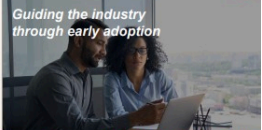

Source: Company data

Just under 20% of the products are currently distributed through the Shelly websites (D2C online). The company wants to significantly professionalize D2C sales over the next few quarters. As a start, the web shops will be relaunched in all relevant languages. In parallel, however, the company also pushes ahead the backend processes for faster delivery times as well as the SEO and SEA optimization.

The B2B sector includes all sales to commercial customers. Most of them resell the products via online channels such as Amazon. At present, Amazon Germany is exclusively addressed by partners. The company assumes that only some 10% of B2B revenue are currently generated with electricians. Professional providers likewise hold significant growth potential. For instance, the Shelly Group is currently negotiating with a major electrical wholesaler for a listing of the Shelly products.

**ESG positioning**

In line with the product portfolio, which includes a broad variety of products for energy metering and energy conservation, the company also pursues ambitious ESG goals. Amongst others, this includes the conversion to 100% renewable energy and the reduction of energy consumption by 70% by 2030 at the latest. Furthermore, the Shelly Group aims to establish more diversity at management level and to provide a concerted work-life balance for the employees. The table below summarizes the ESG goals.

Ecological 	Social 	Governance 
<p><i>Developing a sustainable future</i></p> 	<p><i>Connecting communities across the globe</i></p> 	<p><i>Guiding the industry through early adoption</i></p> 
<p><b>Enabling</b> On target to reduce company energy consumption latest by 70% by 2030</p> <p><b>Sustainability</b> On Track to shift Internal Products &amp; Services to sustainable alternatives latest by 2030</p> <p><b>100% renewables</b> In-line with company commitment to have a net zero carbon footprint latest by 2030</p>	<p><b>Communities</b> Committed to a sustainable environment for the communities we serve</p> <p><b>Employees &amp; Neighbors</b> Engaged as employees &amp; neighbors, actively working together to benefit our community</p> <p><b>Outreach</b> Actively communicating to benefit our community &amp; environment</p>	<p><b>Diverse Leadership</b> Committed to a diverse leadership &amp; supervisory board</p> <p><b>Empowering</b> Delivering results while empowering employees to make key decisions</p> <p><b>Enabling Balance</b> Flexible employee workplaces</p>

Source: Company data

**Management**

The Shelly Group has a one-tier governance model with an executive and non-executive board structure. Dimitar Dimitrov and Wolfgang Kirsch are executive board members responsible for the company’s operational management.

**Dimitar Dimitrov** is the founder, CEO of the Bulgarian holding company, and one of the biggest individual shareholders with a stake of some 30%. In addition to administrative topics at group level, Mr. Dimitrov is primarily responsible for R&D. Mr. Dimitrov had already established other IT companies before, such as a software company for 8- and 16-bit computers and a television channel (REAL TV) as well as IT magazines such as PC Review, Computers, and GSM Review.

**Wolfgang Kirsch** has been the CEO of Shelly Europe since end-2021 and is primarily focused on the expansion of the European business. Prior to this, Mr. Kirsch had been active in the retail business for over 25 years. He held the position of Chief Operating Officer (COO) at the MediaMarktSaturn retail group. Following his job at MediaMarktSaturn, Mr. Kirsch worked as an external consultant of McKinsey & Company and of private equity companies and was involved in various projects related to the digital transformation of international conglomerates and midsize companies.

**Shareholder structure**

The shares of the Shelly Group are traded on the regulated market of the Frankfurt Stock Exchange. The share capital is divided in 17,999,999 ordinary shares. Board member Dimitar Dimitrov and co-founder Svetlin Todorov are the largest individual shareholders with a stake of around 30.3% and 29.4%. The stakes of the other shareholders are below the 3% threshold and are therefore included in the free float (40.3%).

## Disclaimer

This document does not represent any offer or invitation to buy or sell any kind of securities or financial instruments. The document serves for information purposes only. This document only contains a non-binding opinion on the investment instruments concerned and non-binding judgments on market conditions at the time of publication. Due to its content, which serves for general information purposes only, this document may not replace personal, investor- or issue-specific advice and does also not provide basic information required for an investment decision that are formulated and expressed in other sources, especially in properly authorised prospectuses. All data, statements and conclusions drawn in this document are based on sources believed to be reliable but we do not guarantee their correctness or their completeness. The expressed statements reflect the personal judgement of the author at a certain point in time. These judgements may be changed at any time and without prior announcement. No liability for direct and indirect damages is assumed by either the analyst or the institution employing the analyst. This confidential report is made available to a limited audience only. This publication and its contents may only be disseminated or distributed to third parties following the prior consent of Montega. All capital market rules and regulations governing the compilation, content, and distribution of research in force in the different national legal systems apply and are to be complied with by both suppliers and recipients. Distribution within the United Kingdom: this document is allotted exclusively to persons who are authorized or appointed in the sense of the Financial Services Act of 1986 or on any valid resolution on the basis of this act. Recipients also include persons described in para 11(3) of the Financial Act 1986 (Investments Advertisements) (Exemptions) Order 1996 (in each currently valid amendment). It is not intended to remit information directly or indirectly to any other groups or recipients. It is not allowed to transmit, distribute, or to make this document or a copy thereof available to persons within the United States of America, Canada, and Japan or to their overseas territories.

### Reference pursuant to MiFID II (as of 08.11.2024):

This publication was prepared on the basis of a contract between Montega AG and the issuer and will be paid by the issuer. This document has been widely published and Montega AG makes it simultaneously available for all interested parties. Its receipt therefore is considered a permissible minor non-monetary benefit in the sense of section 64 Paragraph 7 Sentence 2 No. 1 and 2 of the German Securities Trading Act (WpHG).

### Supervisory authority:

Financial Supervisory Authority  
Graurheindorfer Str. 108  
53117 Bonn

**Sources of information:** The main sources of information for the preparation of this financial analysis are publications of the issuer as well as publicly available information of national and international media, which Montega regards as reliable. There have also been discussions with members of the management team or the investor relations division of the company concerned when preparing this analysis.

Prices of financial instruments mentioned in this analysis are closing prices of the publishing date (respectively the previous day) if not explicitly mentioned otherwise. Any updating of this publication will be made in the case of events that Montega considers to be possibly relevant to the stocks' price performance. The end of regular comments on events in context with the issuer (coverage) will be announced beforehand.

**Fundamental basics and principles of the evaluative judgements contained in this document:** Assessments and valuations leading to ratings and judgements given by Montega AG are generally based on acknowledged and broadly approved methods of analysis i.e. a DCF model, a peer group comparison, or sum-of-the-parts model.

### Our ratings:

**Buy:** The analysts at Montega AG believe the share price will rise during the next twelve months.

**Hold:** Upside/downside potential limited. No immediate catalyst visible.

**Sell:** The analysts at Montega AG believe the share price will fall during the next twelve months.

## Conflicts of interest

Montega has implemented various measures to avoid conflicts of interest. This includes a ban for all employees of Montega AG from trading stocks within the coverage universe for which Montega has a mandate for the creation of research. Additionally, both employees and the company are prohibited from accepting gifts from individuals with a special interest in the content of research publications. To ensure maximum transparency, Montega has created an overview in accordance with § 85 WpHG and Article 20 of Regulation (EU) No. 596/2014 in conjunction with Delegated Regulation 2016/958. The research report has been made available to the company prior to its publication / dissemination. Thereafter, only factual changes have been made to the report.

- (1) In the past 12 months, Montega has entered into an agreement with the issuer for the creation of financial analyses, for which Montega receives compensation.
- (2) In the past 12 months, Montega has entered into an agreement with a third party for the creation of financial analyses, for which Montega receives compensation.
- (3) In the past 12 months, Montega has provided other consulting services to this company and/or its shareholders.
- (4) In the last 12 months, Montega and/or an contractually bound affiliated entity have been party to an agreement with the analyzed company for services related to investment banking activities or have received compensation from such an agreement.
- (5) Montega and/or an affiliated entity expect compensation from the company for investment banking services in the next three months or intend to seek such compensation.
- (6) At the time of publication, Montega's analyst responsible for the publication or another Montega employee holds shares representing over 5% of the analyzed issuer's share capital.
- (7) At the time of publication, Montega's analyst responsible for the publication or another Montega employee holds a net long or short position of more than 0.5% of the analyzed issuer's share capital.
- (8) A company affiliated with Montega AG may be involved in the share capital of the issuer or hold other financial instruments in this company.
- (9) Montega or an affiliated entity has significant financial interests in the analyzed company, such as obtaining and/or exercising mandates or providing services for the analyzed company (e.g., roadshows, round tables, earnings calls, presentations at conferences, etc.).
- (10) In the last 12 months, Montega provided services (through a third party) to a member of the analyzed company's management related to the transfer of shares of the analyzed company and received compensation for this.
